(201) 349-1339

# And now, the Laser. »

No boat can be all things to all people but this is as close as you can get. The hull is small and light enough to car top, strong enough to withstand school programs (same construction as the Laser!), large enough to carry up to 400 lbs crew weight with sparkling performance and, even beyond that, a family of three. Above all, the boat is simple enough to make it manageable by adults and children of all skills.

## Like the Laser:

It is simple  
it is safe  
it is transportable  
it is fast  
it is one-design

But this time it's a little bigger — only 5 inches — but that's enough to make it perfect for two — just like the name says!

## Specifications:

Length Overall:	14'5"	— 4,39 m
Beam:	4'8"	— 1,42 m
Sail area:	124 sq. ft.	— 11,52 sq. m.
Spinnaker:	110 sq. ft.	— 10,2 sq. m.
Hull weight:	155 lbs.	— 70 kg
Capacity:	450 lbs./205 kg	or 3 adults

Spinnaker and trapeze are available as options

Cockpit is simple, uncluttered and roomy.

After a capsize, the Laser II comes up with a dry cockpit.

Spinnaker and trapeze are exciting options.
